APPLIED ERGONOMICS

Index to Volume 25 (1994), Nos 1–6, pages 1–408

Articles

A discomfort survey in a poultry-processing plant *Stuart-Buttle C* **47**

A field methodology for the control of musculoskeletal injuries *Reynolds J, Drury C G and Broderick R L* **3**

A three-dimensional human model for the IBM/CATIA system (Technical Note) *Kayis B and Iskander P A* **395**

Age influence on attitudes of office workers faced with new computerized technologies *Marquié J C, Thon B and Baracat B* **130**

An ergonomics evaluation of cashier work activities at checker-unload workstations *Grant K, Habes D J and Baron S L* **310**

An evaluation of comfort of a bus seat *Zhao J and Tang L* **386**

Anthropometry of Taiwanese women (Technical Note) *Huang C and You M* **186**

Assessment of musculoskeletal and other health complaints in female hospital staff *Bru E, Mykletun R J and Svebak S* **101**

Assessment of risk factors for development of work-related musculoskeletal disorders (RSI) *Wells R, Moore A, Potvin J and Norman R* **157**

Calculator logic: when and why is RPN superior to algebraic? *Hoffman E, Ma P, See J, Yong C K, Brand J and Poulton M* **327**

Design of workcards for aircraft inspection *Patel S, Drury C G and Lofgren J* **283**

Development of methods for registration of the force exerted by hand–fingers in industrial work (Technical Note) *Nordgren B, Hall J and Andersson A* **393**

Direct measurements and systematic observations of physical workload among medical secretaries, furniture removers and male and female reference populations *Karlqvist L, Wiktorin C, Winkel J and Stockholm MUSIC I Study Group* **319**

Effects of horizontal whole-body vibration on reading *Griffin M J and Hayward R A* **165**

Efficacy of training procedures in implementing a legislated safety programme *Saari J, Hryniewiecki J, Bédard S, Dufort V and Thériault G* **116**

Ergonomic assessment of handle design by means of electromyography and subjective rating *Böhlemann J, Kluth K, Kotzbauer K and Strasser H* **346**

Ergonomics capability in product design and development: an organizational analysis *Slappendel C* **266**

Evaluation of a sitting aid: the Back-Up *Vink P, Douwes M and Woensel W van* **170**

Evaluation of occupational knee-joint stress using liquid crystal thermography: a case study *Habes D J, Bhattacharya A and Milliron M* **111**

Evaluation of the seating of Qantas flight deck crew *Lusted M, Healey S and Mandryk J A* **275**

Evaluation of two instruments for recording sitting and standing postures and number of foot steps *Selin K, Winkel J and Stockholm-MUSIC I study group* **41**

Flexion and extension forces generated by wrist-dedicated muscles over the range of motion *Hallbeck M S* **379**

Formulation of a generalized experimental model for a manually driven flywheel motor and its optimization (Technical Note) *Modak J P and Bapat A R* **119**

Hand and shoulder ailments among laboratory technicians using modern plunger-operated pipettes *Björkstén M G, Almby B and Jansson E S* **88**

Indicators of fatigue in truck drivers *Hartley L R, Arnold P K, Smythe G and Hansen J* **143**

Integrating ergonomics and engineering in the technical design process *Haslegrave C M and Holmes K* **211**

Low-back disorders in agricultural tractor drivers exposed to whole-body vibration and postural stress *Bovenzi M and Betta A* **231**

Measurement of oxygen consumption with the Cosmed K2: a comparative study *Forkink A and Frings-Dresen M H W* **95**

MTFA templates for quick and inexpensive assessment of display image resolution (Technical Note) *Östberg O and Feng Y* **252**

On the investigation of the neurophysiological correlates of knowledge worker mental fatigue using the EEG signal *Okogbaa O G, Shell R L and Filipusic D* **355**

Pneumatic tool torque reactions: reaction forces, tool handle displacements and discomfort ratings during work with shut-off nutrunners *Kihlberg S, Lindbeck L and Kjellberg A* **242**

Postural stress analysis in industry *Genaidy A M, Al-Shedi A A and Karwowski W* **77**

Reasoning and knowledge of nuclear power plant operators in case of accidents *Grosdeva T and de Montmollin M* **305**

Reducing the biomechanical stress of lifting by training *Barker K L and Atha J* **373**

Steady-state accommodation response and VDT screen conditions (Technical Note) *Collins M, Davis B and Goode A* **334**

Stress, violations and accidents *Hartley L R and Hassani J* **221**

The design and implementation of non-verbal auditory warnings *Edworthy J* **202**

The effect of alternative product-label design on warning compliance *Wogalter M S and Young S L* **53**

The effect of posture and seat suspension design on discomfort and back muscle fatigue during simulated truck driving *Wilder C, Magnusson M L, Fenwick J and Pope M* **66**

The effect of seat back inclination on spine height changes *Magnusson M, Hansson T and Pope M H* **294**

The effect of spiked boots on logger safety, productivity and workload *Kirk P and Parker R* **106**

The effects of ergonomically designed school furniture on pupils' attitudes, symptoms and behaviour *Linton S J, Hellsing A-L, Halme T and Åkerstedt K* **299**

The effects of mats on back and leg fatigue *Kim J Y, Stuart-Buttle C and Marras W S* **29**

The problems of being an older driver: comparing the perceptions of an expert group and older drivers *Holland C A and Rabbitt P M A* **17**

The use of auditory feedback in the design of touch-input devices *Schuck M M* **59**

The use of the Nordic Questionnaire in an industrial setting: a case study *Deakin J M, Stevenson J M, Vail G R and Nelson J M* **182**

The V-Scope ultrasonic motion monitor: ergonomics applications in occupational manual materials handling and clinical exercise therapy *Charteris J, Candler P D and Li J-C* **35**

The working positions of schoolchildren *Storr-Paulsen A and Aagaard-Hensen J* **63**

Usability of a one-hand ternary chord keyboard *McMulkin M L and Kroemer K H E* **177**

User trials on the colours and symbols for electronic charts *Kaufmann R and Eaton R M* **366**

Work-related and non-work-related musculoskeletal symptoms *Johansson J Å* **248**
